Inspection Summary

Inspection on January 5-9, 1987 (Report No. 50-346/87002(DRSS))

Areas Inspected: Included a review of Security Plan and Implementing Procedures; Management Effectiveness; Security Organization; Records and Reports; Physical Barriers - Protected Areas; Lighting; Assessment Aids; Access Control - Personnel; Detection Aids - Protected Areas and Previous Inspection Findings. Licensee action on IE Information Notices was also reviewed. The inspector familiarized himself with the licensee's Fitness For Duty Program.

Results: Eleven of twelve previous open items were closed as a result of this inspection. The licensee was found to be in compliance with NRC requirements in eight of nine inspected areas during this inspection. The exception is noted below:

Assessment Aids: Some aspects of the camera coverage were inadequate.

The licensee has initiated several actions since the past inspection and completed certain security projects which have enhanced the overall effectiveness of the security program.
