SUBJECT: Power Outage / Temporary

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

TO: Dept.Supt. Vaughn, Dept.Supt. Stachelek, Major Winder, Mr. Thrash,
Lt. S. Williams, Control Center, File

FROM: Captain Rufus Jones

At approximately 1450 hours the above date, a temporary loss of electrical power was experienced throughout the institution. The loss of power also affected the telephone system as well. All power was restored in a matter of minutes. In conferring with Power House Staff, it was learned that the cause of the problem was due to an energy surge in the Power House area.

Further, as a result of that power outage, an interruption of power occurred on D-Block at approximately 1645 hours. As a precaution measure, I directed that all inmates remain locked in their cells until the problem could be corrected. However, due to staff being unable to contact Electrical Personnel in a timely fashion, the order was issued to feed the block in a controlled fashion. Additional officers were also assigned to not only the block but dining room as well. Further, Lt.'s Dietrich and Burns also aided myself in supervisory coverage for the feeding period. The feeding commenced at 1830 hours and concluded at 1915 hours, free of any incidents. The only lighting available during the feeding was the center row (night lights).

There was only four (4) emergency lights operating on the block at this time. It should also be noted that during the course of this loss of power, there was no interruption of block telephone call or visits. Mr. Nonnemacher was contacted by Captain A. Smith and directed to report to the institution.
