Mr. J. F. Stolz, Director
PWR Project Directorate No. 6
Division of PWR Licensing - B
U. S. Nuclear Regulatory Commission
Washington, DC 20555

SUBJECT: Arkansas Nuclear One - Unit 1
Docket No. 50-313
License No. DPR-51
PORV and Block Valve IST Program Status

Dear Mr. Stolz:

As requested in your letter dated July 3, 1986 (1CNAØ786Ø4), we have added the PORV (PSV-1000) and Block valve (CV-1000) to our ANO-1 IST Program outline. This is to provide you with an updated status since our previous letter dated August 13, 1986 (1CANØ886Ø6). Currently station procedures are being revised to reflect these additions. We expect to have all procedure revisions completed by March, 1987. At such time, we will submit the program outline of these additions for your review.

Very truly yours,

J. Ted Enos, Manager
Nuclear Engineering and Licensing
