RE: Nuclear Commission Regulatory Material License 35-18365-01

Dear Mr. Everett:

Pursuant to your conversation on July 26, 1984, with Dr. Roy A. Parker enclosed is a \$700.00 check for the renewal of the above license.

Dr. Parker, our Consultant, is preparing the renewal application but he was unable to complete it before July 31, 1984, because of a terminal illness in his family.

The application will be submitted as soon as Dr. Parker can complete it.

It will contain a minor editorial change and an alternate source manufacturer. There will be no substantial change.

We understand that this will prevent the license from expiring until the changes can be submitted.

Yours very truly,

CAPITOL STEEL CORPORATION

Walt A. Evans
