As discussed with Mr. Roland J. Bailey of your staff and PSE&G's Nuclear Security Manager, John Bavlish, PSE&G plans to implement a compensatory security management program during a period of training for Security Supervisors. This program will require temporary modification of shift coverage by PSE&G security management as detailed in Attachment 1. The program ensures that the effectiveness of the Security Plan has not been diminished in accordance with 50.54(p). Attachment 1 also provides a list of the training program topics.

Should you have any questions, please contact Mike Ivani k (609-339-4689) of my staff.
