

July 28, 1999

Mr. M. Reddemann  
Site Vice President  
Point Beach Nuclear Plant  
6610 Nuclear Road  
Two Rivers, WI 54241

SUBJECT: POINT BEACH INSPECTION REPORT 50-266/99009(DRP); 50-301/99009(DRP)

Dear Mr. Reddemann:

This refers to the inspection conducted on May 28 through July 13, 1999, at the Point Beach Nuclear facility. The enclosed report presents the results of this inspection.

During this inspection period, plant operations were conducted safely, and there were no significant events or performance problems. The NRC concluded that plant staff had accurately captured equipment failures and malfunctions in the maintenance rule program, and had appropriately dispositioned these failures.

Based on the results of this inspection, the NRC has determined that two violations of NRC requirements occurred. These violations are being treated as Non-Cited Violations (NCVs), consistent with Appendix C of the Enforcement Policy. These NCVs are described in the subject inspection report. If you contest the violations or severity level of these NCVs, you should provide a response within 30 days of the date of this inspection report, with the basis for your denial, to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington DC 20555-0001, with copies to the Regional Administrator, Region III, and the Director, Office of Enforcement, United States Nuclear Regulatory Commission, Washington, DC 20555-0001.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response, if you choose to provide one, will be placed in the NRC Public Document Room.

Sincerely,

Original signed by
