Docket No. 50-443

Public Service Company of New Hampshire
ATTN: Mr. Robert J. Harrison
President and Chief Executive Officer
P. O. Box 330
Manchester, New Hampshire 03105

Gentlemen:

Subject: Inspection No. 50-443/86-54

This refers to the routine safety inspection conducted by Messrs. A. Cerne and D. Ruscitto of this office on November 11, 1986 - January 2, 1987 of activities authorized by NRC Construction Permit No. CPPR-135 and License No. NPF-56 and to the discussions of our findings held by Mr. Cerne with Mr. Moody and others of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

Within the scope of this inspection, no violations were observed. However, one activity appears to be a deviation from FSAR commitments as set forth in Appendix A. You are requested to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.

A section of the enclosed inspection report contains details of your security program that have been determined to be exempt from public disclosure in accordance with 10 CFR 73.21 (Safeguards Information). Therefore, the section so identified in the inspection report will not be placed in the NRC Public Document Room and will receive limited distribution. This letter and the remaining portions of the inspection report will be placed in the Public Document Room, in accordance with 10 CFR 2.790(a).

The responses requested by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:

Edward C. Wenzinger, Acting for
Edward C. Wenzinger, Chief
