**Subject: Beaver Valley Power Station, Unit No. 1
Docket No. 50-334, License No. DPR-66
Updated Final Safety Analysis Report
Revision 17, January 1999**

This letter forwards a signed original and ten (10) copies of Revision 17 replacement pages for the Beaver Valley Power Station, Unit No. 1 Updated Final Safety Analysis Report (UFSAR). The submittal reflects changes to the facility and procedures as described in the UFSAR that were completed during the annual reporting period ending January 22, 1999. Changes completed after the reporting period may also be included.

To the best of our judgment and belief, this revision accurately presents changes made since the previous submittal which are necessary to reflect information and analyses submitted to the Commission or prepared pursuant to Commission requirements. This revision includes:

- Changes identified in the annual "Report of Facility Changes, Tests and Experiments." This report is being submitted separately under the provisions of 10 CFR 50.59.
- Changes resulting from technical specification amendments.
- Changes to the quality assurance program which were made under the provisions of 10 CFR 50.54.
- Editorial changes intended to correct or clarify the text and figures of the UFSAR.

A project which is performing UFSAR verification activities is still in progress. Therefore, potential UFSAR revisions associated with open items have not yet been fully incorporated.

If you have any questions concerning the attached, please contact Mr. M. S. Ackerman, Manager, Safety & Licensing, at (412) 393-5203.

Sincerely,

Sushil C. Jain
