Dear Ms. Varga:

This refers to Materials License 29-27872-01G, which was issued September 24, 1986. The license was issued in accordance with your July 10, 1986 application and September 8, 1986 response to the Licensing staff's August 25, 1986 request for additional information.

An application fee of \$290 accompanied your application as specified in fee Category 3K of §170.31 of the enclosed 10 CFR 170. Fee Category 3K pertains to applications for licenses to distribute items to persons generally licensed. However, in your September 8, 1986 response you also requested authorization to distribute byproduct material to specific licensees, which is subject to an application fee of \$230 as specified in fee Category 3P of §170.31. Accordingly, an additional fee of \$230 is required. Payment should be made to the U.S. Nuclear Regulatory Commission and sent to the attention of Sandra Kimberley, at our Washington, DC address.

If you have any questions concerning this matter, please let us know.

Sincerely,

Original Signed By
Glenda Jackson
