AMENDATORY ENDORSEMENT

1. The definition of "nuclear energy hazard", in addition to the meaning stated in the policy, shall also mean radiation arising out of the use of the linear accelerator described in the Schedule below while such accelerator is at the facility described in Item 3 of the Declarations.
2. The definition of "nuclear material", in addition to the meaning stated in the policy, shall include material made radioactive by the use of the linear accelerator described in the Schedule below while such accelerator is at the facility described in Item 3 of the Declarations.
3. The liability for which coverage is afforded under paragraphs 1 and 2 above must arise out of the use of the linear accelerator described in the Schedule below during the calendar year in which this endorsement became effective. Insurance for liability arising out of use of such linear accelerator during any subsequent calendar year that this policy is in existence shall be afforded under this policy only if an endorsement covering liability arising out of the use of such accelerator during such subsequent year is attached to this policy.

SCHEDULE

3.5 MeV Miniature Accelerator (Serial No. 002) built by Schonburg Radiation Corporation under a contract issued by Electric Power Research Institute (EPRI) and used for radiographic purposes, said Accelerator being used at the Boston Edison Company's Pilgrim facility under a contract with J. A. Jones Applied Research Company.

This is to certify that this is a true copy of the original Endorsement having the endorsement number and being made part of the Nuclear Energy Liability Policy (Facility Form) as designated hereon. No insurance is afforded hereunder.

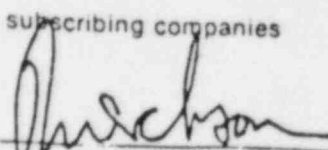

John L. Mastrocchi, Vice President- Liability Underwriting  
American Nuclear Insurers

Effective Date of this Endorsement January 1, 1985 To form a part of Policy No. NF-188  
12:01 A.M. Standard Time
