SUBJECT: ACCEPTANCE FOR ERRATA TO FRAMATOME TOPICAL REPORT  
BAW-10241PA, REVISION 1, "BHTP DNB CORRELATION APPLIED WITH  
LYNXT TOPICAL REPORT" (EPID L-2020-TOP-0038)

Dear Mr. Peters:

By letter dated June 30, 2020 (Agencywide Documents Access and Management System (ADAMS) Package Accession No. ML20188A238), Framatome, Inc. (Framatome) submitted for review and approval Errata to BAW-10241(P)(A), Revision 1, "BHTP DNB Correlation Applied with LYNXT Topical Report." In the letter, Framatome stated that the enclosed Errata proposes some minor changes to BAW-10241PA, Revision 1. Framatome is also requesting an accelerated review due to the narrow scope of the proposed Errata and to support customer applications. The NRC staff have found that the material presented is sufficient to begin our review. The NRC staff plan to issue requests for additional information by October 30, 2020, and draft safety evaluation by January 15, 2021.

This schedule information takes into consideration the NRC's current review priorities and available technical resources and may be subject to change. If modifications to these dates are deemed necessary, we will provide appropriate updates to this information. The NRC staff estimates that the review will require approximately 300 staff-hours including project management. The review schedule milestones and estimated review costs were discussed and agreed upon between Ms. Gayle Elliott and the NRC staff on August 4, 2020.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that topical reports are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff-hours will be billed accordingly.

G. Peters
