5. Procedures For Safely Opening Packages Containing Radioactive Material

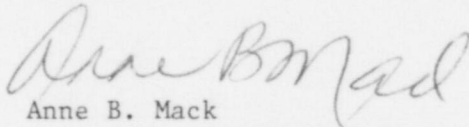

We wish to maintain our records of the results of checking each package on the attached "Radioactive Shipment Handling and Inspection Form."

6. Area Survey Procedures

We wish to amend our area survey procedures to use our end window GM survey meter as noted in Item 9 of our original application as the device for measuring and performing wipe tests as required. Additionally, we confirm that areas which are noted as greater than 3 times background/100cm<sup>2</sup> will be decontaminated.

We look forward to our amendment. Thank you for your prompt attention to this matter.

Sincerely,
