

UNITED STATES ATOMIC ENERGY COMMISSION

DOCKET NOS. STN 50-508 AND STN 50-509

WASHINGTON PUBLIC POWER SUPPLY SYSTEM, ET AL  
(WPPSS Nuclear Projects No. 3 and No. 5)

NOTICE OF RECEIPT OF APPLICATION FOR CONSTRUCTION PERMITS

AND FACILITY LICENSES;

TIME FOR SUBMISSION OF VIEWS ON ANTITRUST MATTERS

Washington Public Power Supply System, on behalf of itself and four investor-owned electric utilities, Pacific Power and Light Company, Portland General Electric Company, Puget Sound Power and Light Company, and The Washington Water Power Company, (the applicants) pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, filed an application, (Preliminary Safety Analysis Report, General and Financial Information and Antitrust) which was docketed on August 2, 1974, for authorization to construct and operate a generating unit utilizing a pressurized water nuclear reactor designated as the WPPSS Nuclear Project No. 3; and in which Washington Public Power Supply System (the applicant), on behalf of itself, requests authorization to construct and operate a generating unit utilizing a pressurized water nuclear reactor designated as the WPPSS Nuclear Project No. 5. The application was tendered on March 5, 1974. Following a preliminary review for completeness, the application (including the Environmental Report) was rejected on April 15, 1974 for lack of sufficient information. The applicants submitted a revised Preliminary Safety Analysis Report (application) on July 15, 1974, and the application was found to be acceptable for docketing.

Docket Nos. STN 50-508 and STN 50-509 have been assigned to the application and they should be referenced in any correspondence relating to the application. The applicants will submit a revised Environmental Report on August 15, 1974. When the revised Environmental Report is found to be acceptable, a notice of availability of the Environmental Report will be published in the FEDERAL REGISTER.

This application has been filed utilizing the "reference system" option of the Commission's standardization policy for nuclear power plants, wherein a standard design that involves a major fraction of a nuclear facility may be referenced in license applications. This application references the standard nuclear steam supply system design of Combustion Engineering's Standard Safety Analysis Report (CESSAR), Docket No. STN 50-470, which is currently under staff review. The proposed nuclear facilities are to be located on Washington Public Power Supply System's site in Grays Harbor County, Washington, about 26 miles west of Olympia. Each unit is to be designed for initial operation at 3800 megawatts thermal, and an electrical output of approximately 1300 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U. S. Atomic Energy Commission, Washington, D. C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before **OCT 22 1974**. The request should be filed in connection with Docket Nos. STN 50-508-A and STN 50-509-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C. 20545, and at the W. H. Abel Memorial Library, 125 Main Street, South, Montesano, Washington 98563.

Dated at Bethesda, Maryland, this 6<sup>th</sup> day of August 1974.
