Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-424/86-110 AND 50-425/86-49

The subject report was transmitted to you in a letter dated December 29, 1986. This is to inform you of an error contained in the subject report and transmittal letter.

The letter and paragraph 4 of the report indicate that a new unresolved item was identified. This is incorrect. When the first drafts of the report and letter were prepared, one new matter was considered unresolved and was described in the draft report. The matter was resolved through subsequent analyses and the report and letter should have been corrected to reflect this resolution. This was partially accomplished, but the letter and paragraph 4 of the report were not corrected due to an oversight.

Please correct your records to indicate that no new unresolved item was identified by Inspection Nos. 50-424/86-110 and 50-425/86-49.

Should you have any question concerning this letter, please contact us.

Sincerely,

/s/

Virgil L. Brownlee, Chief
Reactor Projects Branch 3
Division of Reactor Projects
