Gentlemen:

SUBJECT: MEETING SUMMARY - REPORT NOS. 50-269/87-08, 50-270/87-08 AND
50-287/87-08

This letter refers to the enforcement conference conducted, at our request, in the Region II Office on December 22, 1986. This meeting concerned activities authorized by NRC Operating License Nos. DPR-38, DPR-47 and DPR-55 for the Oconee Nuclear Station. The meeting was held to brief NRC on the sequence of events regarding the Safety System Functional Inspection (SSFI) findings for the Oconee Nuclear Station. The subjects discussed are detailed in the enclosed inspection report and meeting handouts.

Our concerns regarding the Safety System Functional Inspection findings were expressed to you at the meeting and your positive response to our concerns is appreciated.

It is our opinion that this meeting was beneficial and has provided for a better mutual understanding of the inspection findings and enforcement issues. We also found your description of the findings and your corrective actions to be beneficial in our evaluation of the issues. In accordance with Section 2.790 of NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosures will be placed in NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them.

Sincerely,
