Dear Mr. Campbell:

SUBJECT: ANO-2, GENERIC LETTER 83-28, ITEM 2.1 (PART 1)

The Commission has completed the review of your responses to Generic Letter 83-28 Item 2.1 (Part 1) for the Arkansas Nuclear One, Unit 2. Item 2.1 (Part 1) requires you to confirm that all components whose functioning is required to trip the reactor are identified as safety-related on all plant documentation and in information handling systems that are used to control all activities performed on this safety-related equipment. Based on our review of your responses, we conclude that your responses to Generic Letter 83-28 Item 2.1 (Part 1) are acceptable. Our Safety Evaluation with attached Technical Evaluation Report is enclosed.

It should be noted that this does not complete our actions on the subject matter in that the Vendor Interface portion (Part 2) of this item has not been resolved.

Sincerely,

/s/

Robert S. Lee, Project Manager
