U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D. C. 20555
September 17, 1997

Gentlemen:

Donald C. Cook Nuclear Plant Units 1 and 2
MODIFIED AMENDED SECURITY PLAN (MASP), REVISION 31

The attached revision 31 to the MASP is submitted in accordance with 10 CFR 50.54(p). The revision addresses the exemption of USNRC personnel from the site specific training requirement. USNRC personnel receive generic nuclear access training that meets or exceeds that provided through site specific training; therefore, site training is believed to be redundant.

Details of changes are found in the screening criteria form in attachment 1 to this letter. These changes do not decrease the effectiveness of the security plan. Attachment 2 contains the MASP index and the section 2.3 changed page 1 of 6.

Please acknowledge receipt of the attached information by signing and returning the safeguards information transmittal form to D. J. Ashley, Cook Nuclear Plant, One Cook Place, Bridgman, Michigan 49106.

Sincerely,

A handwritten signature in dark ink, appearing to read 'E. E. Fitzpatrick'.
