Re: Omaha Public Power District Fort Calhoun Station, Unit
No. 1, Docket No. 50-285

Dear Mr. Denton:

As counsel for Omaha Public Power District ("OPPD"), we hereby submit three (3) signed originals and nineteen (19) copies of a document entitled "Application for Amendment of Operating License," together with forty (40) copies of the proposed Technical Specifications (Attachment A) and the "Discussion, Justification and No Significant Hazards Considerations" (Attachment B). The application seeks to amend Section 3 of the Technical Specifications set forth in Appendix A to that License to incorporate revisions to the surveillance criteria for the steam generator tube inspections.

Pursuant to 10 C.F.R. § 170.21, a check for the application fee of \$150.00 accompanies this application. OPPD would appreciate issuance of this amendment prior to the 1987 refueling outage so that it may be implemented in refueling outage inspections.

A certificate showing service of these documents on the persons listed therein is also enclosed.

Very truly yours,

LeBoeuf, Lamb, Leiby & MacRae
