Nuclear Operations
P. O. Box 26666
Richmond, VA 23261

Gentlemen:

SUBJECT: SURRY POWER STATION EMERGENCY PLAN REVIEW
DOCKET NOS. 50-280 AND 50-281

We have completed our review of the September 29, 1986, revision to the Surry Power Station Emergency Plan.

Our review indicated that these changes to your Surry Power Station Emergency Plan meet the planning standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR 50.

Please be reminded that 10 CFR 50.54(q) requires that proposed changes that decrease the effectiveness of your Emergency Plan shall not be implemented without application to and approval by the Commission. However, changes may be made without approval if such changes do not decrease the effectiveness of the Plan, and the Plan as changed, continues to meet the standards of 50.47(b) and the requirements of Appendix E to 10 CFR 50. In all cases, you should furnish copies of each change to the NRC in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR 50, Appendix E, Section V.

Should you have any questions regarding this letter, please contact Mr. Thomas R. Decker of the Region II staff at (404) 331-2559.

Sincerely,

Virgil L. Brownlee, Chief
Reactor Projects Branch 3
Division of Reactor Projects
