SUBJECT: REQUALIFICATION PROGRAM INSPECTION - CALVERT CLIFFS

Dear Mr. Cruse:

In a telephone conversation on August 26, 1999, Mr. L. Briggs, Examiner/Inspector, and Mr. Bill Bernie, Supervisor, Requalification Training, made arrangements for the NRC to inspect the licensed operator requalification program at the Calvert Cliffs Nuclear Power Plant. The inspection is planned for the week of October 25, 1999, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In accordance with 10 CFR 55.59(c), the NRC may request facility licensees to submit their comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish the exam week schedule and the written examinations and operating tests scheduled for the week of the inspection to the NRC by October 4, 1999. Mr. Bernie has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.
