FROM: [illegible]

Dear Mr. Miller:

Pursuant to our conversation this morning agreement has been reached on the depositions of two FEMA employees. Correspondence reflecting this agreement is enclosed. Additionally, FEMA will produce in Washington on Monday, November 17th, its response to your document production request dated October 10, 1986.

I am enclosing an index to documents that has been developed concerning document production. In no event, will FEMA be producing any documents dated prior to June 20, 1985, the date of the Jordan to Krimm Memorandum copy enclosed.

Finally, I understand that several filings, including Motions to Compel against FEMA, have been filed by you with the service list showing hand delivery. Since we received nothing from you on November 10th, I assume that the service list was incorrect and an appropriate correction will be filed with all parties.

Sincerely,

William R. Cumming

SUBJECT:

SCHEDULING OF EMERGENCY PLAN EXERCISE
FOR SHOREHAM

In response to LILCO's standing request to schedule an exercise of its emergency plan for Shoreham, the Commission, in a memorandum to the Executive Director for Operations dated June 4, 1985 (Enclosure 1), stated that it sees no reason why the licensee (i.e., LILCO) should not be allowed to exercise those parts of the plan which may be legally exercised. Further, the Commission indicated that it does not disagree with the view that an exercise of the LILCO plan could yield meaningful results, even though such an exercise may not satisfy all of the requirements of NRC's regulations. The exercise could, as a minimum, identify the impact of the limitations of LILCO's plan when executed under the state and county restrictions.

Accordingly, we request that FEMA schedule as full an exercise of the LILCO Local Emergency Response Organization (LERO) plan as is feasible at the present time giving appropriate consideration to the Suffolk County Executive's May 30, 1985 Executive Order and subsequent developments relating to emergency planning activities by the County. In determining those portions of the LERO plan that might be appropriate for inclusion in an exercise at this time, we suggest that FEMA emphasize evaluation of the functional areas of emergency preparedness related to the demonstration of response capabilities within the plume exposure (10 mile) Emergency Planning Zone.

In the event FEMA determines that an exercise is not currently possible, we request that FEMA provide a response which addresses the five issues identified in the memorandum from the Secretary of the Commission. Commissioner Asselstine's views on this matter are provided as Enclosure 2.

MEMORANDUM FOR: William J. Dircks, Executive Director
for Operations

FROM: Samuel J. Chilk, Secretary *SG*

SUBJECT: SCHEDULING OF EMERGENCY PLAN EXERCISE
FOR SHOREHAM

In view of LILCO's standing request to schedule an exercise of its emergency plan, the Commission, with Chairman Palladino and Commissioner Asselstine disagreeing, sees no reason why the licensee should not be allowed to exercise those parts of the plan which it may legally exercise.

The Commission does not disagree with the view that an exercise of the LILCO plan could yield meaningful results, even though such an exercise may not satisfy all of the requirements of NRC's regulations. It could, as a minimum, identify the impact of the limitations of LILCO's plan when executed under the state and county restrictions. Although the Commission is aware that because of the recent court decision a full exercise of the LILCO emergency plan may not be possible, the staff should request that FEMA schedule as full an exercise of the LILCO plan as is feasible and lawful at the present time. If FEMA indicates an exercise is not currently possible, the staff should ask FEMA to provide a detailed report of its reasons for declining, addressing the following:

1. Status of the outstanding technical and operational deficiencies with the LILCO plan.
2. Estimates of when each remaining deficiency will be corrected.

NOTE: Since this SRM was approved, the County Executive of Suffolk County has issued an Executive Order indicating that the County will cooperate in emergency planning activities for Shoreham. The Staff, in requesting that FEMA schedule an emergency plan exercise, should also suggest that FEMA give appropriate consideration to the County's apparent change of position regarding participation in emergency planning activities.

3. Specific plan implementation activities LILCO could not exercise given the state court's decision.
4. Benefits and disadvantages to holding an exercise, given the response to Item 3, until legal concerns have been fully resolved or adequate compensating measures taken.
5. Views on whether (and if so how) the deficiencies can be adequately remedied without the involvement and cooperation of state and local entities.

Commissioner Asselstine's views for inclusion in any letter to FEMA will be provided to you within several days. ||

Shoreham Service List

Commissioner Asselstine does not believe that the Commission should request that FEMA schedule an emergency planning exercise of the LILCO plan at this time. Absent state or local government participation, there are serious questions about LILCO's authority to implement significant portions of its emergency plan for Shoreham. Further, there is an ongoing dispute within Suffolk County concerning the county's position on emergency planning at Shoreham and its willingness to participate in testing and implementing an emergency plan. Under these circumstances, Commissioner Asselstine believes that scheduling an exercise of the LILCO plan at this time would only confuse matters further. He therefore recommends that FEMA wait to plan and schedule an exercise for Shoreham at least until there is some resolution of Suffolk County's position on this issue.

Dear Mr Cumming:

Subject: The Shoreham Exercise Proceeding

An employee of the United States Department of Agriculture (USDA), Cheryl Malina, participated in the the Long Island Lighting Company Offsite Emergency Plan for the Shoreham Nuclear Power Station as an evaluator of medical operations at the Emergency Operations Center. Ms. Malina and employees of other Federal agencies have been asked to appear at 1900 M Street, N.W., Suite 800, Washington, D.C. so that the attorneys representing Suffolk County, New York, may take depositions with respect to the Nuclear Regulatory Commission proceeding concerning the licensing of the Shoreham facility. The Director of the Office of Emergency Planning, USDA and Ms. Malina do not believe that she has any information that would be material to this proceeding.

I understand that your Office opposes this series of depositions. For purposes of opposing these depositions, it is appropriate for the United States to speak with one voice. Therefore, you may represent the interest of the USDA proposed deponent in asserting opposition to the scheduled depositions.

Sincerely,

JAMES MICHAEL KELLY
