JUN 2 6 1986

Docket No. 50-440

The Cleveland Electric Illuminating
   Company
ATTN: Mr. Murray R. Edelman
      Vice President
      Nuclear Group
Post Office Box 5000
Cleveland, OH 44101

Gentlemen:

The Nuclear Regulatory Commission has completed its SALP Assessment relating
to the performance of your Perry Unit 1 facility and will present its
findings at a meeting on July 15, 1986, at 1:00 p.m. at the Perry Plant site.
Arrangements for this meeting were made between you and Mr. J. A. Grobe of
Region III on June 25, 1986.

We encourage Cleveland Electric Illuminating Company to have appropriate
corporate and plant management representation at the meeting to ensure a
mutual understanding of the issues and findings being presented by NRC.

While this meeting is considered a presentation and discussion forum between
Cleveland Electric and the NRC, the meeting will be opened to any other
interested parties as observers. Those persons outside the licensee and NRC
staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a
meaningful characterization of the overall safety performance for the
Perry Plant.

                                    Sincerely,

                                    "Original Signed by E.G. Greenman"

                                    C. E. Norelius, Director
                                    Division of Reactor Projects
