Laura,

Our Dept. wants to add Co-60 teletherapy to the authorized user request for Dr. Beydoun. He received training here during his residency using that exact device. Can I add that to the existing request or should I wait to submit that separately so as not to delay the other amendments?

Thank you.

Hello Dr. Rakowski,

Thank you for taking time out of your day to discuss your pending amendment request for Karmanos Cancer Center, NRC License No. 21-04127-06. As we discussed today, please send your response to the items in the attached file by no later than Friday, July 24, 2020.

In preparing your response please refer to the NRC's licensing guidance for Y-90 microspheres at the following link: <https://www.nrc.gov/docs/ML2008/ML20080J208.pdf>. Additionally, licensing guidance for the Leksell Gamma Knife Icon may be found at the following link: <https://www.nrc.gov/docs/ML1833/ML18333A365.pdf>.

I can be reached at 217-493-0429 or via email with any questions.

**Thank you,  
Laura Cender**
