B. M. Testing
ATTN: Ms. Betty L. McCourt
Radiation Safety Officer
91 Stony Creek
Sutton, West Virginia 26601

SUBJECT: NRC INSPECTION REPORT NO. 47-25418-01/99-01

Dear Ms. McCourt:

This refers to the initial inspection conducted on August 11, 1999, with you at Route 33 near Spencer, West Virginia. The inspection was an examination of activities conducted under your license with respect to radiation safety and compliance with NRC regulations and the conditions of your license. It included an interview with you surrounding your initial possession and disposition of portable moisture/density gauges containing licensed material.

Based on the results of this inspection, no violations were identified. You stated that you possessed licensed material at one time. However, you currently do not possess licensed material, and are undecided on future possession and use. We request that you inform us when you decide to initiate operations with licensed material. Based on discussions with the inspector, Mr. R. Gibson, you agreed to submit to this office: 1) documentation showing proof of purchase of portable moisture/density gauge(s) indicating the manufacturer, model number and type of source(s); 2) certificate of the sealed source(s) indicating initial leak tests and physical inventory; and 3) documentation of transfer of the portable gauges to a licensed entity indicating their NRC or Agreement State License Number. To date we have not received this information. Please forward it promptly in the enclosed self addressed envelope.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.

Thank you for your cooperation.

Sincerely,

original signed by M. Lesser

Mark S. Lesser, Chief
Materials Licensing/Inspection Branch 2
Division of Nuclear Materials Safety
