Re: Mr. Kenneth Wierman

U.S. Nuclear Regulatory Commission  
Painesville, OH 44077  
Notice of Violation

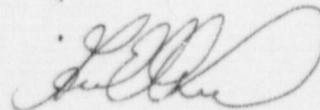

Gentlemen:

Please let this letter serve as a response to the Notice of Level III Violation received by Kenneth Wierman. As I believe you are aware, Mr. Wierman has admitted to the misconduct set forth and can only suggest that the misconduct was precipitated by poor judgment and inappropriate "corner-cutting". As you are aware, the situation has been corrected by Mr. Wierman's dismissal from his position at the Perry Nuclear Power Plant and that therefore no further steps need to be taken by Mr. Wierman to avoid further violations, and that, to the best of Mr. Wierman's knowledge, the Perry Nuclear Power Plant is now in compliance with training instruction procedures.

I trust this response answers your inquiry.

Very truly yours,

COOPER & FORBES

Glenn E. Forbes
