License No. 06-23655-01
Docket No. 030-29575
Control No. 119933

DIANON SYSTEMS, Inc.
ATTN: Phillenore D. Howard, Ph.D.
Director, Laboratory
555 Lordship Boulevard
Stratford, Connecticut 06497

Gentlemen:

Please find enclosed your NRC material license.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the Region I Material Licensing Section, (215) 337-5239, so that we can provide appropriate corrections and answers.

Please be advised that you must conduct your program involving licensed radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, please note the items in the enclosed, "Requirements for Materials Licensees."

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, the NRC expects licensees to pay meticulous attention to detail and to achieve the high standard of compliance which the NRC expects of its licensees.

We note you mentioned your intent to dispose, as normal trash, solid forms of radioactive waste. You are not allowed to dispose of solid radioactive waste as normal trash. You can, however, allow such waste to decay for a minimum of 10 half-lives and then dispose of it as normal trash. We have given you this option (c.f. Condition 13.) as a license condition.

You will be periodically inspected by NRC. A fee may be charged for inspections in accordance with 10 CFR Part 170. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in prompt and vigorous enforcement action against you. This could include issuance of a notice of violation or in case of serious violations, an imposition of a civil penalty or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.
