Ms. Pat Vacca  
Director's Office  
Nuclear Medicine Safety  
and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

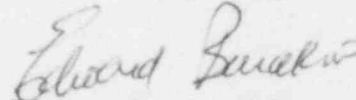

Dear Ms. Vacca:

Enclosed is the additional information required for adding my name to the Materials License for Nuclear Medicine at Irvington General Hospital.

You will notice that my experience was gained both at Montefiore and Irvington General Hospital and that the Preceptorship was signed by Dr. Leonard Freeman, Director of Nuclear Medicine at Montefiore, and by Dr. Jatin Gajarawala, Director of Nuclear Medicine at Irvington General. Dr. Gajarawala is currently on the Materials License at Irvington General.

I hope this will be sufficient to supply all of the information that you require. Thank you for your patience in this matter.

Very truly yours,

Edward Burak, M.D.  
Director of Radiology
