

Comstock Engineering, Inc.
Memorandum

50-456/457-0L

A-41

6/18/86

To: I. DeWald
From: R. M. Saklak
Subject: Personnel Commendations D. Schirmer/
Termination Inspectors

07 MAR 31 P12:21

Office: Braidwood

OFFICE OF
COCKEYING SERVICE
BRANCH

Date: 10/17/84

Control No. 84-10-17-02

Over the past months of working with the cross-training program here at the Braidwood site, one couldn't help but notice the area of termination inspections not only met but exceeded the demand for trainers, practical exams, classroom aides, training outlines, and above all maintain a professional attitude.

I am submitting this memorandum as a commendation to Lead Inspector D. Schirmer and his group, N. Kimble, P. Nelson, M. Sproull, and F. Rolan for a superior job professionally done.

This group has achieved a good working relationship with the craft, the client and L.K. Comstock employees as exemplified on Friday, October 12, 1984. Five practical exams were given using a field electrician to perform the work, exams were evaluated the same day along with performing 3 in-process inspections and 17 R.W.R. inspections. There is definitely no grass growing under this groups feet.

For future reference, this commendation will serve as a positive goal attained by Don and his group.

Respectfully,

R. M. Saklak
Supervisor of Inspectors
