

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION III
799 ROOSEVELT ROAD
GLEN ELLYN, ILLINOIS 60137

MAY 19 1987

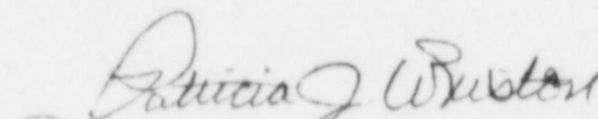

O'Brien & Associates, Inc.
P. O. Box 1231
1235 E. Davis Street
Arlington Heights, IL 60005

Gentlemen:

Sometime after March 1, 1987, the Nuclear Regulatory Commission anticipates the signing of an Agreement with the State of Illinois. The agreement will transfer some of the Commissions regulatory authority over byproduct, source and special nuclear materials to the State. In order to facilitate this transfer, we have amended your current NRC license to authorize use only at job sites in the United States where the NRC maintains jurisdiction, except within the State of Illinois. In addition, we have issued you a new license, ending with the letters "IL," for use only at your permanent and temporary job sites within the State. Licensed activities conducted under this new license will be subject to regulatory control by the State of Illinois as of the effective date of the Agreement. We have enclosed copies of these actions with this letter. All communications with the State should be addressed to:

Mr. Paul Eastvold, Manager
Office of Radiation Safety
Department of Nuclear Safety
1035 Outer Park Drive
Springfield, IL 62704

Sincerely,

Bruce S. Mallett, Ph.D., Chief
Materials Licensing Section

Enclosures: As stated
