**HEALTH PHYSICS PROCEDURES**  
Table of Contents

<u>TITLE</u>	<u>NO</u>	<u>REV</u>
RADIOLOGICAL INSTRUMENTS AND CALIBRATION AND FUNCTIONAL CHECKS . Contains requirements for calibration, functional checks, potential problems, and required forms.	RAC-001	2
DOSIMETRY PROGRAM . Contains requirements for TLDs, SRDs, bioassay exposure limits and required forms.	RAC-002	3
SOURCE ACCOUNTABILITY AND LEAK TESTING . Contains requirements for licensable source handling and storage and required forms.	RAC-003	1
PARTICULATE/RADIATION/CONTAMINATION CONTROL . Contains requirements for occupational and environmental air sampling, radioactive contamination of personnel and equipment.	RAC-004	1
RESPIRATORY PROTECTION PROGRAM . Contains requirements for respiratory use, maintenance and required forms.	RAC-005	0
EMERGENCY PREPAREDNESS POLICY . Contains requirements to protect property and personnel during emergency conditions.	RAC-006	1
DECONTAMINATION OF PERSONNEL AND EQUIPMENT . Contains the requirements for decontamination of personnel and equipment.	RAC-007	1
HABITABLE STRUCTURE ALPHA SURVEY . Contains the requirements for alpha surveys, direct and smear, standards and required forms.	RAC-008	2
PROBLEM REPORT . Contains the requirement for resolving and controlling field related problems.	RAC-009	0

<u>TITLE</u>	<u>NO</u>	<u>REV</u>
AUGERING AND GAMMA LOGGING OF BOREHOLES AND REA SOIL SAMPLING . Contains the requirements for augering and gamma logging boreholes indoors and outdoors, identification of contamination, background determination and required forms.	RAC-010	4
VICINITY PROPERTY GAMMA SURVEYS . Contains requirements for grid or scan gamma surveys, indoors and outdoors.	RAC-011	4
ENVIRONMENTAL RADON AND GAMMA MONITORING . Contains requirements for environmental radon concentrations control actions and required forms.	RAC-012	0
BORROW MATERIAL RADIOACTIVE SCREENING . Contains requirements for verification of radioactive clean soil by gamma scanning.	RAC-013	1
EXCAVATION CONTROL PROCEDURES . Contains requirements for excavation control of sites and vicinity properties, sample control and required forms.	RAC-014	3
VERIFICATION PROCEDURES FOR VICINITY PROPERTIES AND TAILINGS SITES SOIL SAMPLING AND ANALYSIS . Contains requirements for verification of excavated areas, including gridding, measurements sampling and recording.	RAC-015	3
INDOOR STRUCTURE WORKING LEVEL VERIFICATION . Contains requirements for verification within structures. Grab sample and Track Etch.	RAC-016	3
RADIOLOGICAL QUALITY ASSURANCE PROCEDURE . Contains requirements for quality control checks on radiological measurements and analyses performed for dosimetry, environmental radon monitoring, and soil verification.	RAC-017	0
