Re: Amendment to our NRC Radioactive Materials License #12-21101-01

Gentlemen:

I request amendment to License #12-21101-01 to indicate a location change, mailing address change, and phone number change for our field industrial radiography operations to:

American Testing and Inspection (ATI)
1904 Cherry Hill Road
Joliet, Illinois 60433

Phone: 815-726-3900

Enclosed is a facility sketch of this new warehouse location, which is a 40' X 80' building, owned by ATI, on a 5 acre lot, surrounded by a chain link fence, zoned industrial. I believe the sketch shows all pertinent information.

This new location provides increased security, greater distance from our industrial neighbors, and more space than our existing licensed location. There are no other changes in our licensed operations.

In the event of any questions, please feel free to contact me at the above referenced phone number or Stan Huber, our nuclear consultant, at 815-485-6161, if we may assist in any way in expediting this application.

Our check for the \$230 amendment fee for our category 3-0 license is enclosed.

Thank you.

Sincerely,

Ron Preston
