Dear Ms. Marshall:

Regarding your letter dated July 8, 1986, please let me assure you that although the name Davis Engineering and Land Surveying will no longer exist, the company is now and will be continuing under the same management.

Davis Engineering and Land Surveying was a sole proprietorship and we felt it was time to incorporate. The only change in personnel is that Kent Polenz is no longer with the firm and Ray M. Atkins is the new Nuclear Regulatory Officer. Our facilities are still located at 306 7th Street, and all procedures will be carried out as set down in our original license application.

If you have any further questions, please don't hesitate to contact me.

Sincerely,

Ronald D. Davis, President
Davis-Atkins and Associates, Inc.
