MEMORANDUM FOR: R. Dale Smith, Director
Uranium Recovery Field Office

FROM: Edward F. Hawkins, Chief
Licensing Branch 1

SUBJECT: PROJECT MANAGER ASSIGNMENTS - UMTRAP SITES

Attached is a revised list of project manager assignments for UMTRAP sites. A few assignments have been changed to accomodate shifting schedules and workloads. Also, the list shows the new projects numbers we are now using for all UMTRAP sites. These numbers correspond to the ones the Division of Waste Management, NMSS and the PDR are currently using. For sites where no project manager is assigned, it is anticipated that these will be assigned to new staff as they are available.

Pete Garcia will continue as senior project manager for all active sites reclamation reviews. The project manager for all vicinity property cleanup reviews will continue to be Randy Brich.
