

3 DEC 1986

Mr. Richard Conway, Senior Vice President
and Project General Director
Georgia Power Company
Route 2, Box 299A
Waynesboro, Georgia 30830

Dear Mr. Conway:

Subject: Vogtle Unit 1 Mechanical Equipment Qualification Program

The staff stated in a letter dated January 15, 1985, to Georgia Power Company that part of the NRC staff review of the Vogtle application for an operating license includes an audit review of Vogtle's environmental qualification program for safety-related mechanical equipment. To facilitate this effort, we are requesting that Georgia Power Company provide complete qualification information, including engineering drawings, for the following three items of mechanical equipment.

<u>Item</u>	<u>Plant ID No.</u>
1. Techno Corporation/tornado damper	11551W7300
2. Anchor Darling/stop check valve	11302U4128
3. Garrett/valve	1PV0455A

This information should be provided by December 5, 1986, in order not to impact Vogtle Unit 1 fuel load. If there are any questions on this matter, contact me at (301)492-7357.

Sincerely,

Melanie A. Miller, Project Manager
PWR Project Directorate #4
Division of PWR Licensing-A
