MEMORANDUM FOR RECORD

FROM: Lewis W. Shollenberger, Jr., Regional Counsel

SUBJECT: TELEPHONE CONTACT WITH TOM DEVINE, GAP

By telephone conversation November 1, 1984, Tom Devine requested that I advise him whether his client, Mr. Zouhair Elawar, has succeeded in getting his concerns into our Diablo Canyon allegation tracking system. He said Mr. Elawar checked SSER's 22 and 26 and could not find reference to his allegation. Mr. Devine said his client's concern had to do with errors in the "FLUD computer code calculations for high energy line breaks". He referred me to Tom Bishop's memo of May 8, 1984, reference file RV 84-A-0046. I told him I would check into the matter and try to get back to him Friday, November 2nd.

After consulting with Dennis Kirsch, I called Mr. Devine late morning, November 2nd. He was not in but returned my call around 2:30 p.m. the same day. I advised Devine that Mr. Elawar's concern, which had been the subject of Bishop's May 8 memo, had been entered into our Diablo Canyon tracking system as allegation #222. I explained that reference to the latter appeared at page 11, Attachment #1 to SSER 26 (dated July 1984). I also stated that his client's concern, as expressed in his letter of early September, 1984 had been received here September 9, 1984, and logged into our tracking system as allegation #1472. I told him both allegations had been transmitted to NRR for review and appropriate disposition. He thanked me and we terminated the conversation.
