

# CLARK OIL & REFINING CORPORATION

August 27, 1985

U. S. Nuclear Regulatory Commission, Region III  
Materials Licensing Section  
799 Roosevelt Road  
Glen Ellyn, IL 60137

Gentlemen:

We request a renewal of our material license #12-13646-04.

We intend to operate under the terms and conditions of our existing license, the application dated April 20, 1983.

We request that our license be amended by deleting Item 6, 7, and 8A (Americium-241 Source).

This material and instrument was returned to the manufacturer for disposal on 10/19/83. We have attached a certificate of disposition and other documentation to indicate this.

We intend to continue the use of material licensed under Item 6, 7 and 8B (Cesium-137), and request that the only change be that in condition #12B. The name D. Meyers should be deleted and replaced by the name J. Heinecke.

Please address any correspondence concerning this renewal application to me.

Sincerely yours,

C. R. Loane  
Process Engineer
