

June 2, 1987

The Honorable Donna Owens  
Mayor of Toledo  
One Government Center  
Suite 2220  
Toledo, OH 43604

30-29977

Dear Mayor Owens:

SUBJECT: ISSUANCE OF NRC LICENSE TO: Hull & Associates, Inc.  
2726 Monroe Street  
Toledo, OH 43606  
License No. 34-24957-01

This is to inform you that the subject organization has been issued a license by the Nuclear Regulatory Commission (NRC) for the possession of americium 241 and cesium 137 to be used for moisture/density measurements.

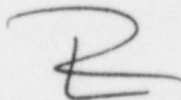

This notification is in accordance with NRC policy of informing public officials when organizations located in their jurisdiction are first licensed.

Included among the Nuclear Regulatory Commission's responsibilities are the regulation of the use of radioactive materials for industrial applications, research, and in consumer products. A license is intended to provide reasonable assurance that the public health and safety is adequately protected, by prescribing specific conditions and requirements for the use of authorized radioactive sources.

We will be periodically performing unannounced inspections of this facility to insure safe use of such licensed materials. You may request copies of the inspection reports through this office.

If you have any questions, please let me know.

Sincerely,

Roland Lickus, Chief  
State and Government Affairs
