799 Roosevelt Road  
Glen Ellyn, Illinois 60137

SUBJECT: License amendment for Moly possession limit

Gentlemen:

Our Nuclear Medicine department would like to increase the Moly possession limit from a 2Ci to a 3Ci generator (Tc-99) due to the fact that we have experienced an increase in patient volume, particularly aerosol imaging. All rules and regulations will be followed as previously stated in our license. Our license is currently under renewal. However, to expedite this request, we specifically request an amendment to our license to increase the Moly possession limit from 2Ci to 3Ci generator (Tc-99).

Thank you for your prompt attention in this matter.

Sincerely yours,

*Marjorie Kacvinsky*
