Attention: Mr. Daniel R. Muller, Director
BWR Project Directorate No. 2
Division of BWR Licensing

Subject: James A. FitzPatrick Nuclear Power Plant
Docket No. 50-333
Multi-Plant Actions (MPAs) Licensing Status
Supplemental Information

- References:
1. NRC letter (H. Abelson) to NYPA (J.C. Brons) dated May 1, 1986, concerning FitzPatrick MPA listing.
 2. NYPA letter (J.C. Brons) to NRC (D.R. Muller) dated May 30, 1986, MPA status.
 3. NYPA letter (J.C. Brons) to NRC (D.R. Muller) dated September 5, 1986, revised and updated MPA status.

Dear Sir:

Reference 1 forwarded the NRC listing of Multi-Plant Actions (MPAs) applicable to the James A. FitzPatrick Plant. This listing was provided with a request that the Authority review these items and provide the completion or projected completion dates as appropriate. References 2 and 3 provided responses to this request. The purpose of this letter is to provide the status of the remaining MPAs.

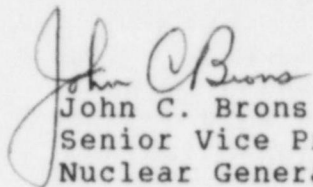

Attachment 1 to this letter consists of a complete listing of FitzPatrick MPAs. This Attachment provides the actual or expected completion dates based on the latest Authority correspondence to the NRC, License Amendments, modification packages, plant procedures, NRC Safety Evaluation Reports, and various Authority documents. Changes to the listing since the last update (Reference 3), are noted by a change bar in the margin. The status of MPAs B-22, B-48, B-55, and D-17 can not be provided due to lack of information about their origin. All four were closed out by the NRC on January 1, 1970, which is more than five years before FitzPatrick began commercial operation.
