RE: 8609

November 13, 1986

W.T. Crow, Acting Chief
U.S. Nuclear Regulatory Commission
Uranium Fuel Licensing Branch
Division of Fuel Cycle & Material Safety
Office of Nuclear Material Safety & Safeguards
Washington, D.C. 20555

RE: License SUB-1010; Docket 40-8027
Applicant For Amendment
DUF₆ to DUF₄ Processing Plant

Dear Mr. Crow:

Enclosed with this letter are eight (8) copies of SFC's revised application for Amendment for the DUF₆ to DUF₄ Processing Plant. This submittal replaces our previous submittal dated January 24, 1985.

The revised application discusses the replacement of the steam chest with autoclaves and incorporates revisions to SFC's license SUB-1010 as a result of the January 4, 1986 accident at SF, including the conditions set forth in the NRC Order Modifying License issued October 2, 1986. Much of the information contained in the amendment was previously submitted to the NRC.

Should you have any questions, please contact me at your earliest convenience.

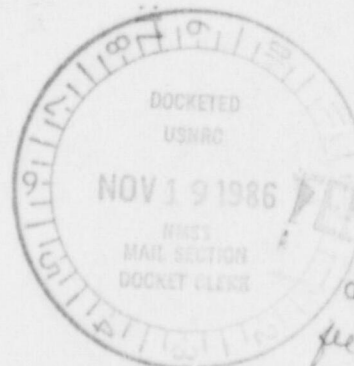

Sincerely,

John C. Stauter
John C. Stauter, Director
Nuclear Licensing & Regulation
