SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKETS NOS. 50-445 AND 50-446
CONTROL OF DESIGN MODIFICATIONS
SDAR: CP-87-10 (INTERIM REPORT)

Gentlemen:

On May 11, 1987, we verbally notified your Mr. I. Barnes of a deficiency involving design change document control measures which may not have been adequately established prior to the implementation of the current design modification program. This is an interim report of a potentially reportable item under the provisions of 10CFR50.55(e).

The scope of this issue affects only Unit 1 Design Modifications issued for systems/subsystems previously turned over to and accepted by CPSES Operations.

The evaluation of this issue with regard to the safety of plant operations has been incorporated into the Corrective Action Program, specifically the Stone and Webster Corrective Action Project. This evaluation is scheduled for completion by July 30, 1987.

We will submit our next report on this issue no later than August 28, 1987.

Very truly yours,

A handwritten signature in cursive script that reads 'W. G. Council'.
