- C. To list physicians on our license who would be authorized the use of byproduct materials listed on our license. (Please refer to the Item No. 4 and 8 of the attached application for further information.)
- D. To increase the possession limit for Group III materials to 20 Curies.
- E. For authorization of I-131 for treatment of hyperthyroidism.

Please note that the byproduct materials will be received, stored, used and disposed of in accordance with the statements made in our previous license application. For therapeutic amount of I-131, please refer to the attached Item No. 19.

Each of the six institutions listed in this application has an Institutional Byproduct Materials License. We have requested letters of termination of the license from the administrators of the hospitals listed above. We will forward these letters as soon as we receive them. We understand that the termination of their license will be concurrent to the issuance of the amendment so there would be no break in license coverage.

We hope that the information submitted is satisfactory. However, in the event that additional information is necessary, please call me at 312-564-3330.

Sincerely,
IML IMAGING INC.
