Washington, D.C. 20555

SUBJECT: RENEWAL OF LICENSES NO. 24-12734-02
EXPIRATION DATE: 1/31/84

CPC International requests renewal of by-product materials license number 24-12734-02. We wish to continue to operate under our current license as amended January 10, 1983. We will continue to operate in accordance with statements, representations, and procedures contained in application dated July 13, 1982; and letters dated December 13, 1978, and October 12, 1982 (with attachments); and applicable NRC regulations and license conditions.

CPC International request one change in Condition No. 12 of the existing license.

- a) Delete the names A. Norman and L. Harper.
- b) Add the name K. Frendle. Mr. Frendle received a Certificate of Proficiency on April 13, 1983, from Ohmart Technical Training Schools covering the areas of principles and practices of radiation protection, radioactivity measurement and monitoring, mathematics and calculations, and biological effects of radiation. Mr. Frendle's work experience includes four years in a supervisory capacity of maintenance, calibration, and wipe testing of sealed source instruments.

We hope that the above information satisfies all requirements for the renewal of our license. If you have any questions please contact me at area code 816 471-8000.

Sincerely,

8610060255 860807
