U.S. Customs Service
Attention: Ms. Linda Angellatta
Contract Administrator - Room 1404
1301 Constitution Avenue, N.W.
Washington, D.C. 20299

Dear Ms. Angellatta:

Subject: Interagency Agreement No. NRC-08-87-330 Entitled "Sensitive
Nuclear Export Control Fact Book"

Pursuant to the Economy Act of 1932, the U.S. Nuclear Regulatory Commission (NRC) and the U.S. Customs Services desire to enter into an agreement whereby the NRC will provide funds to support the U.S. Customs Service's Contract No. TC-85-54, Modification No. 1, with the BDM Corporation. This agreement is a cost sharing effort, jointly funded by several federal agencies.

ARTICLE I - Background/Objective

The NRC is participating in the joint program with the U.S. Customs Service and the Departments of Commerce and Energy to publish a sensitive nuclear export control fact book which discusses in detail NRC-licensed commodities and those commerce-licensed items controlled for nuclear non-proliferation reasons. The objective is to design a fact book that can be used by personnel without a scientific or engineering background whose duties involve administering or enforcing nuclear export regulations. The fact book will be a valuable tool in assisting NRC licensing personnel in their review of NRC and Commerce export license applications.

ARTICLE II - Scope of Work

See attached Statement of Work from the U.S. Customs Service contract with BDM Corporation.

ARTICLE III - Deliverables

The U.S. Customs Service, through its contract with the BDM Corporation, will provide the NRC with copies of all deliverables due under this modification to Contract TC-85-54 (see Attachment 1, Statement of Work).

These deliverables should be sent to the following address:

FOB/Destination

Ms. Elaine Hemby
U.S. Nuclear Regulatory Commission
Office of International Programs
Washington, D.C. 20555

ARTICLE IV - Period of Agreement

The period of the agreement will be from date of acceptance by the U.S. Customs Service through September 30, 1987.

ARTICLE V - Technical Direction

Ms. Elaine Hemby (phone (301) 492-7984)) is designated as the Project Officer for this project for the purpose of assuring that the services/deliverable items required under this agreement are delivered in accordance herewith. All technical instructions to the U.S. Customs Service shall be issued through the Project Officer. Technical instructions shall not constitute new assignments of work or changes of such a nature as to justify an adjustment in cost or period of performance.

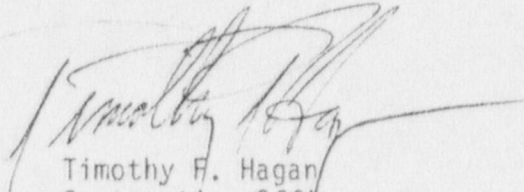

ARTICLE VI - Funding

The U.S. Nuclear Regulatory Commission obligates \$42,000 to support this cost-sharing effort. U.S. Customs Service's voucher should reference the following accounting data: B&R No. 80-19-04; FIN No. D1436; Appropriation No. 31X200.807.

If you agree with the provisions of this agreement, please so indicate by signing in the space provided below and returning three fully executed copies to the undersigned. The fourth copy is for your records.

If you have any questions of a contractual nature, please contact Barbara Meehan, Contract Negotiator, at (301) 492-4733.

Sincerely,

Timothy F. Hagan
Contracting Officer
