Mr. James C. Malaro
Isotopes Branch, Div. of Mat. Licensing
U. S. Atomic Energy Commission
By Product Material Branch
Washington, D. C. 20545

Dear Mr. Malaro:

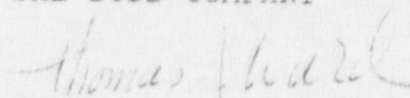

The Budd Company Research Laboratory wishes to terminate their By-product Material License for sealed sources for radiography. The license number is 37-05680-01. AEC form 31.4a is attached as a certificate of disposition of radio isotopes.

In the remarks section of this form, note that we have not had a sealed source since May 1968, but have maintained an active license, without having a sealed source at this site.

We would like to reapply at a later date to reinstate this license should the need arise for isotope radiography.

Very truly yours,

THE BUDD COMPANY

Thomas J. Ward, Ph.D.
Manager
Research Laboratory
