Dan Martin
Section Leader
Uranium Recovery Licensing Section
U.S. Nuclear Regulatory Commission
Mail Station 623-SS
Washington, D.C. 20555

Dear Mr. Martin:

Enclosed for your review and comment are six (6) copies of the draft Remedial Action Plan and Site Conceptual Design for Stabilization of the Inactive Uranium Mill Tailings Sites at Slick Rock, Colorado. Please note that this document is considered by the Department of Energy (DOE) to be part of the deliberative process and is not for release to the general public at this time.

In order to avoid impacting the current schedule for design and remedial action, your comments on the draft Remedial Action Plan (dRAP) should be forwarded to this office by June 15, 1987. Following receipt of comments on the dRAP from reviewing agencies, a formal review meeting will be scheduled to discuss issues raised by commentors.

Also enclosed for your use are ten copies of the "UMTRA Document Review Form". Use of this form provides a standard format for comments and responses and provides a consistent method for confirming that all comments on a document have been responded to and/or implemented in subsequent documents. Instructions for use of the form are also enclosed. Although it is not mandatory that you use the form, it would be very helpful in that it will save time that would otherwise be required to transfer your comments to the form once they are received by the DOE.

On May 8, 1987, we will be contacting you to verify that the package you receive is complete. Please give the documents a thorough review prior to that date in order to determine whether you will require additional information in order to complete your review by June 15, 1987.
