SUBJECT: Update on Burrell U.P. drilling program

SUMMARY

Mr Longmire stated that five of the proposed ten wells have been constructed. Construction began on March 25 and is scheduled to be completed by May 15. He also indicated the depths of each well and that preliminary pH measurements showed successful completion. These wells, and local residential and industrial wells are scheduled for sampling on May 18.

Mr. Longmire also mentioned that a report on the drilling and sampling results will be sent to NRC when DOE receives the water quality analyses. No timetable was provided.
