

Federal Emergency Management Agency

Washington, D.C. 20472

OCT 21 1986

MEMORANDUM FOR: Edward L. Jordan
Director, Division of Emergency Preparedness and
Engineering Response
Office of Inspection and Enforcement
Nuclear Regulatory Commission

FROM: *Richard W. Krimm*
Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological Hazards Programs

SUBJECT: Indian Point Post-Exercise Assessment Modification

Attached is a memorandum from Federal Emergency Management Agency (FEMA) Region II which identifies an additional deficiency in the June 4, 1986 full-scale exercise at the Indian Point Nuclear Power Station, in Buchanan, New York. On October 6, 1986, we sent you the Post-Exercise Assessment identifying 6 deficiencies in that exercise. Inadvertently, another problem, although correctly described on page 95 of the text of the report, was inserted in the wrong category in the summary on page 98. The problem concerned various training and equipment inadequacies in the Personnel Monitoring Center in Orange County. This was listed as an Area Requiring Corrective Action but should have been listed as a Deficiency on page 98. We have informed the State of New York of this administrative error. It will be among the items addressed by the remedial actions to be completed by the State.

If you have any questions, please feel free to call me or Robert S. Wilkerson at 646-2861.

16 OCT 1986

MEMORANDUM FOR: Dave McLoughlin, Acting Associate Director
State and Local Programs and Support

FROM:

Norman Steinlauf
Acting Regional Director

SUBJECT:

Additional Deficiency to Post Exercise
Assessment Report for Indian Point

This is to advise you that on October 6, 1986, in the process of preparing for a remedial exercise for Indian Point, the Regional REP staff identified a problem area in the report that had not been categorized as a deficiency.

The attached letter was forwarded to the New York State Disaster Preparedness Commission Chairman advising him of this matter.

If there are any questions, please contact Mr. Ihor W. Huzar, Supervisory Natural & Technological Hazards Program Specialist, FTS 264-8395/3276.

Mr. James D. Papile, Director
Radiological Emergency Preparedness Group
State of New York
Building #22 -- First Sublevel
State Campus
Albany, New York 12226-5000

Dear Mr. Papile:

Due to an editing error, our office overlooked the deficiency for objective "O Field 16" involving the PMC for emergency workers in Orange County. Since this deficiency must be addressed during the remedial exercise, please inform us as to whether we can exercise the PMC on November 14, 1986. If a problem exists with this date, please let us know.

If you have any questions, feel free to call Paul Weberg.

Sincerely,

A handwritten signature in black ink, appearing to read "Ihor W. Husar". The signature is written in a cursive style with a long horizontal flourish extending to the right.

Ihor W. Husar
Chairman
Regional Assistance Committee
