Mr. Carl H. Berlinger, Chief  
Reactor System Branch  
Division of PWR Licensing - A  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Ref: Letter, R.A. Copeland (ENC) to H.R. Denton (NRC), dated  
December 23, 1985.

Dear Mr. Berlinger:

Subject: "Exxon Nuclear Neutronics Design Methods for PWR,"  
XN-NF-75-27(P), Supplement 4.

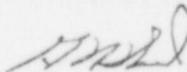

Attached for your information and review are responses to the requests for additional information received via telecon to support the review of the subject topical report.

Exxon Nuclear considers the responses to these questions to be proprietary. In accordance with the Commission's Regulation 10 CFR 2.790 (b), the Affidavit provided with the reference transmittal letter of the topical report provides the necessary information to support withholding of the responses to the questions for public disclosure.

Because this information is provided in response to NRC questions concerning an ongoing review, this submittal does not constitute application for a new special project review and approval. Therefore, no application fee is required under the Commission's Regulation 10 CFR 170.12 (f), and no additional payments are forwarded herewith.

If there are further questions or if more information is needed, please contact me.

Sincerely,

G. N. Ward, Manager  
Reload Licensing
