Docket No. 50-322-OL-5
(EP Exercise)

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

**LILCO'S FIRST SET OF INTERROGATORIES AND
REQUESTS FOR PRODUCTION OF DOCUMENTS TO NEW YORK STATE**

Long Island Lighting Company, by its counsel, propounds the following interrogatories to New York State, pursuant to §§ 2.740, 2.740b and 2.741 of the Nuclear Regulatory Commission's Rules of Practice. In responding to these interrogatories and requests, New York State should follow the instructions and definitions contained in LILCO's First Set of Interrogatories to Intervenors, dated October 29, 1986.

When used in these interrogatories and requests, "New York State" or "New York State personnel" means New York State, or any agency thereof and any elected official, appointed official, legislator, agent, employee, consultant, contractor, technical advisor, representative or other person acting for or on behalf of them, or at their direction and control, or in concert with or assisting them.

INTERROGATORIES AND REQUESTS FOR PRODUCTION

1. Please identify by (1) plant, (2) date, (3) scope (10-mile, 50-mile EPZ, both), (4) scale (full-scale or partial), and (5) nature (regular, remedial, etc.) each FEMA-graded emergency planning exercise for nuclear power plants in which New York State personnel have participated (by developing, reviewing, or approving exercise scenarios and/or objectives, or by participating in the exercise itself) during the last five years.

DS03

2. Please identify all New York State personnel who have been involved, at any time in the last five years, in the development, review, or approval of scenarios and/or objectives for FEMA-graded exercises for nuclear power plants in New York State.

3. Please provide copies of all (1) final scenarios, (2) final objectives which were developed, reviewed, or approved by the New York State personnel identified in response to the previous interrogatory, (3) all documents prepared by New York State personnel identified by response to the previous interrogatory as part of their development, review, or approval of those scenarios and/or objectives, and (4) FEMA post-exercise assessments for each such exercise.

4. For each FEMA-graded exercise for nuclear power plants in New York State in which New York State personnel have participated or have developed, reviewed, or approved the scenario and/or objectives, in the last five years please identify (1) the total number of hospitals located in the emergency planning zone and (2) the number of hospitals that participated in the exercise. Please provide the same information for schools (public, private, parochial and nursery), and for nursing homes and adult homes.

5. Please identify all FEMA-graded exercises, within the last five years, for nuclear power plants located in New York State as well as those located in other states, in which New York State personnel have participated in the ingestion pathway portion of the exercise. Please identify all New York State personnel who participated in those exercises.

6. For each FEMA-graded exercise for nuclear power plants in New York State in the last five years in which New York State personnel have participated or

have developed, reviewed, or approved the scenario and/or objectives for the exercise, please provide the following information:

- a. the number of buses, ambulances and ambulettes that participated in the exercise,
- b. the number of reception centers and congregate care centers that participated in the exercise and the theoretical capacity of those facilities,
- c. a description of the equipment, number of personnel and facilities that were used during the exercise for the monitoring and decontamination of evacuees and vehicles at reception centers,
- d. a description of the equipment, number of personnel and facilities that were used during the exercise for the monitoring and decontamination of evacuees from nursing and adult homes,
- e. the number of traffic impediments that were posed to the emergency response organization,
- f. the number of traffic posts that were staffed, the number of traffic control personnel that staffed them, and the number of traffic posts that were observed by FEMA,
- g. whether rumor control capabilities were tested and the method used for testing.

7. Did any FEMA-graded exercise conducted in the last five years in which New York State personnel participated include a hypothesized wind shift during the accident? If yes, please identify each such exercise. During any of those exercises, was an evacuation recommendation rescinded as a result of a wind shift? If so, please describe and identify and provide copies of pertinent documentation.

8. Please identify all New York State personnel who have been involved in the development of programs to train and evaluate New York State personnel who are to respond to an emergency at nuclear power plants in New York State.

9. What sample groups, sample sizes or sampling criteria are used by the persons identified in Interrogatory 8 to evaluate the ability of New York State personnel to respond to an emergency at a nuclear power plant or to evaluate the effectiveness of a training program.

Respectfully submitted,

Donald P. Irwin
Lee B. Zeugin
